Community Partners

JOIN THE EFFORT TO GREEN ATLANTA

Clean Air Campaign – www.cleanaircampaign.com

- The mission of The Clean Air Campaign is to motivate Georgians to take action to improve air quality and reduce traffic congestion. To accomplish this mission, The Clean Air Campaign offers a variety of voluntary programs and services, including free employer assistance, financial incentives, public information and programs for schools.

Southface Energy Institute – www.southface.org

- Southface promotes sustainable homes, workplaces and communities through education, research, advocacy and technical assistance. Southface's programs and services reached about 40,000 people last year. Southface partners with the City of Atlanta by managing a grant program called Rebuild Atlanta, which focuses on energy conservation and sustainability practices in City facilities. They also engage and educate the public about green building techniques in the hope that these concepts become standard practice.

Trees Atlanta – www.treesatlanta.org

- Trees Atlanta is a non-profit citizens' group, dedicated to protecting and improving our urban environment by planting and conserving trees. Since 1985, Trees Atlanta has planted and distributed over 68,000 trees. Trees Atlanta has had a contract with the City of Atlanta for tree planting and tree care each year since 2004, provided at no cost to citizens. Trees Atlanta plants trees along major corridors and in business districts of the City and at least 100 trees in each City Council district.

Keep Atlanta Beautiful

- Keep Atlanta Beautiful serves the citizens of Atlanta by developing and implementing effective public education and community improvement programs which enhance the quality of life and economic development of the community by instilling pride and positive attitude and behavior change regarding natural resource conservation, littering, recycling and beautification.

ATLanta Recycles

- The mission of ATLRecycles is to promote Atlanta as a national leader in environmentally responsible living by fostering a culture of sustainable practices through resource conservation, recovery and recycling.
